I think smart phone make changes future, because on the him we will see at a time, ^{ak} take a photo and talking with friends and classmates in Instagram, Vk, Whats app. New smart phones helping people going on blogging working like professional camera, like canon, Sony, but for they buying need more money, in the last telephones for cheapest, but for they don't need more of money, but new smart phones have a kind of th free camera, internet, more useful things for people.

I think that last telephones good for grandmothers and grandfathers, because they don't need a good camera, internet they needed calling and take a sms. Teens, girls and boys needed a lot of camera, good plays, internet. They need to Instagram, Vk, Whats app for talking, take a photo with friends.

I think future a goodest like last, because I don't see me without smart phone and don't know what I will do without him.
